**Acquisition of Two Office Assets
(Win Gotanda Building 2, MIF Building)**

Ichigo Investment Advisors (“IIA”), the asset management company of Ichigo Office, decided today to acquire two central Tokyo office assets, the Win Gotanda Building 2 and the MIF Building.

1. Asset Acquisition Summary

Total appraisal value: JPY 5,800 million Total acquisition price: JPY 5,500 million

Asset Number Asset Name	O-89 Win Gotanda Building 2	O-90 MIF Building
Asset Type	Office	Office
Date Built	March 1993	January 1991

¹ Appraisal Value is as calculated by Tanizawa Sogo Appraisal or Daiwa Real Estate Appraisal as of March 1, 2018, and is compliant with the appraisal guidelines of IIA as well as the rules of The Investment Trusts Association, Japan.

² Acquisition Price excludes incidental expenses such as fees and property, city planning, and consumption taxes.

³ Financing details will be announced when determined.

2. Acquisition Rationale

Ichigo Office continues to execute on its strategy to grow long-term value for its shareholders by focusing its portfolio on high-quality office assets.

In combination with its sale of three non-office retail assets (the “Asset Sales”¹) during the April 2018 fiscal period, Ichigo Office expects that the acquisition of these two mid-size office buildings (the “Acquisitions”) in Central Tokyo, which has strong tenant demand and upside rent potential, will strengthen Ichigo Office’s portfolio.

The Asset Sales were made at 1.4X book value and 1.4X appraisal value, resulting in gains on sale of c. JPY 1.586 billion, which are being deployed towards growth investments, including today’s Asset Acquisitions. In turn, the Asset Acquisitions are being made at below appraisal value with the support of Ichigo Office’s sponsor, Ichigo (2337).

Post-acquisition, Ichigo Office’s portfolio will be 92.9% office assets, with 80.3% in the Tokyo Metropolitan Area and 57.6% in Central Tokyo. Ichigo Office expects the Asset Acquisitions to both increase earnings stability and contribute to further earnings growth, and will be financed using the proceeds from the Asset Sales and new loans.

Ichigo Office has confirmed the appropriateness of the Asset Acquisitions’ acquisition prices. In particular, given that this is a related party transaction as specified in IIA’s rules, Ichigo Office fully implemented its related party transaction procedures, including getting third-party appraisals on all of the assets and cross-checking these third-party appraisals with additional third-party second opinion appraisals.

The existing tenants of the Asset Acquisitions fully comply with the “Real Investment Trust Issuer Management Report” (Japanese only) submitted on January 26, 2018

Please refer to Section 3 “Details of the Two Assets being Acquired” for the specific acquisition rationale for each asset.

¹ For details of the Asset Sales please refer to the March 16, 2018 release “Sale of Two Retail Assets (Ichigo Sapporo Minami 2 Nishi 3 Building, Ichigo Daimyo Balcony)” and the March 29, 2018 release “Sale of Retail Asset (Ichigo Burg Omori Building).

3. Details of the Two Assets being Acquired

In light of its capabilities to own and operate mid-size office buildings and to grow their value and that of the total portfolio, Ichigo Office made the following assessments of the two office buildings to be acquired.

a. Win Gotanda Building 2

(1) Location

The Gotanda area of Tokyo continues to see strong demand from office tenants given its proximity to the Shinagawa and Osaki business areas, its accessibility by three railway lines, and an abundance of nearby restaurants and retail stores.

A growing number of IT start-ups have moved into Gotanda in recent years because of relatively lower rents compared to Shibuya and Ebisu, and the availability of many office buildings in close proximity to the train station.

The Win Gotanda Building 2 is expected to have strong demand from diverse tenants given its convenient location alongside a major thoroughfare, Yamate Dori, its proximity to the station, and its high visibility.

(2) Features

A mid-size office building located within a 5-minute walk from Gotanda Station on the JR Yamanote Line, the Toei Subway Asakusa Line, and the Tokyu Ikegami Line, and immediately adjacent to Osaki Hirokoji Station on the Tokyu Ikegami Line.

Each floor has a standard floor plate of 120 tsubo (396m²) with ceiling heights of 2.6m, and is equipped with individual air conditioning units and raised access floors, therefore catering to the demands of diverse tenants.

The first floor is occupied by a convenience store and the upper floors are occupied by office tenants, including telecommunications companies and building management companies.

b. MIF Building

(1) Location

The building is located in Central Tokyo in the Uchikanda area north of Otemachi – home to many major companies and financial institutions – and features excellent transport access across Central Tokyo.

As a secondary market to the major Otemachi and Marunouchi business areas, Uchikanda offers a combination of smooth and convenient access at reasonable rents, thus catering to a diverse range of tenants.

The building should see continued demand from manufacturers and regional companies seeking to establish a marketing base in Tokyo, given that it is within walking distance from Kanda Station on the JR Yamanote Line.

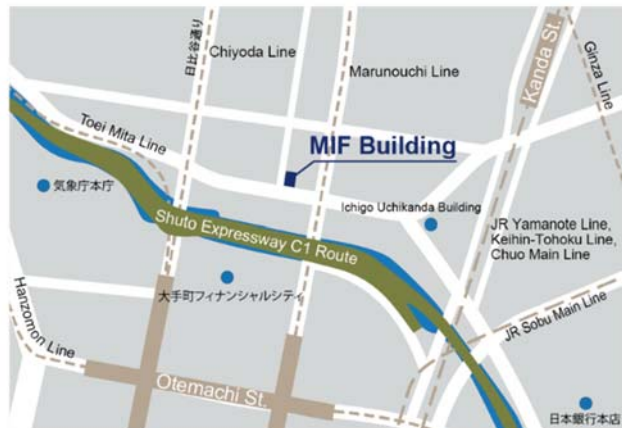

(2) Features

A mid-size office building located within a 4-minute walk from Otemachi Station on the Marunouchi Line and a 6-minute walk from Kanda Station on the JR Yamanote Line.

Each floor has a standard floor plate of 80 tsubo (264m²) and is shaped in such a way that it can accommodate a variety of layouts. Each floor is also equipped with individual air conditioning units and raised access floors, therefore catering to the demands of diverse tenants.

A convenience store occupies the first floor and the upper floors are occupied by office tenants including media, pharmaceutical, and manufacturing companies.

Special Items

1. Ichigo Office owns 72% of the building, with the remainder owned by 3 other parties.
2. A portion of the land is jointly owned by 4 parties, including some joint-owners of the building, and an agreement exists between the land owner, the joint owners of the portion of land, and the joint-owners of the building stipulating the mutual use of this land without any usage fees charged between parties. Certain borders between jointly-owned sections of land remain undefined.
3. If a joint owner of the building wishes to sell or pledge its holding, then a mutual agreement exists that specifies such owner must obtain prior written consent from the other joint-owners of the building and from the owner of the land. Notwithstanding the above, this does not apply to the sale, pledge, or transfer of trust beneficiary interests made by the 72% owner of the building.
4. Part of a retractable rain cover encroaches an eastern neighbor (street address 33-2) and a jointly-built aluminum fence protrudes into the properties of each party on the eastern side. A memorandum of understanding exists between the two parties which specifies how to handle rectification if and when the need arises.
5. A lease termination notification was received from one of the tenants (leased area: 273.67m²) on March 30, 2018 and effective September 30, 2018. The occupancy is expected to be 88.3% after the termination.

¹ Includes part of land (172.08m²) owned by other parties.

² SRC = Steel-Reinforced Concrete

³ The names of the architect, builder, structural designer, and inspection agency are those of when the building was built.

⁴ Proportionate to 72% joint-ownership
