Explanation of Changes

Although occupancy decreased for Office, Four Major Regional Cities, and Other Regional Cities due to departing tenants at the Fukuoka Kensetsu Kaikan and Ichigo Toyamaeki Nishi Building, occupancy increased for Central Tokyo and Tokyo Metropolitan Area due to new tenants at the Ichigo Higashi Ikebukuro 3 Chome Building and Ichigo Gotanda West Building. Ichigo Office is working towards the rapid lease-ups of the vacant spaces.

Actions Driving Tenant Satisfaction and Earnings

As part of its efforts to increase tenant satisfaction and drive earnings via value-add capex, Ichigo Office completed renovating two floors of the Ichigo Shibuya East Building in central Tokyo with Ichigo-designed Ready to Move In Offices and electricity, water, and HVAC equipment renewals following a large-scale tenant departure.

The high-quality, convenient office space caters to tenant needs and includes two conference rooms, private booths for online meetings, sofas, and counter space. As a result, Ichigo Office successfully leased up one floor immediately after beginning leasing activities to a new tenant at a 70% rent increase, in line with rents of newly built offices in the area.

The building's value-add capex is being financed by the committed term loan announced in November 2024.

Ichigo Office will continue to increase tenant satisfaction and the competitiveness of its assets to drive higher value for its shareholders.
