2. CASBEE Assessment

Ichigo Sakaisuji Honmachi Building

- (1) The building is equipped with highly efficient air conditioning and building control systems, resulting in above-average electricity efficiency.
- (2) The building offers and promotes convenient access to public transportation.
- (3) The building is designed for extensive natural light availability, contributing to tenant well-being and comfort.
- (4) Ichigo Office and Ichigo Investment Advisors, the asset management company of Ichigo Office, work collaboratively with the building management company to set energy efficiency goals each year and generate ongoing efficiency improvements.

Ichigo Sendai East Building

- (1) The building offers and promotes convenient access to public transportation.
- (2) The building features and cares for natural vegetation consistent with the surrounding habitat in order to support increased biodiversity.
- (3) The building is sited in an area with limited natural disaster risk.
- (4) The building is designed for extensive natural light availability, contributing to tenant well-being and comfort.
- (5) Ichigo Office and Ichigo Investment Advisors, the asset management company of Ichigo Office, work collaboratively with the building management company to set energy efficiency goals each year and generate ongoing efficiency improvements.

3. CASBEE Overview

CASBEE evaluates and rates buildings' environmental performance based on their energy and resource efficiency, recycling activity, environmental load, and aesthetic appeal.

CASBEE-certified buildings are scored for their environmental performance in five categories and receive a total environmental performance ranking (from highest to lowest): S, A, B+, B-, C.

CASBEE Environmental Performance Evaluation Categories

- a. Energy/greenhouse gas
- b. Water
- c. Materials
- d. Biodiversity/sustainable site
- e. Indoor environment

For a list of CASBEE-certified buildings in Japan, please refer to the URL below (Japanese only):
