3. Transaction Rationale

As a specialized office REIT, Ichigo Office continues to execute on its strategy to grow shareholder value by focusing its portfolio on high-quality, mid-size office assets.

Consistent with this strategy, Ichigo Office is today acquiring an office asset and selling a non-office retail asset. Ichigo Office's post-transaction portfolio will be 80 office assets, comprising 95.5% of the portfolio by value. The acquisition and sale are expected to increase Ichigo Office's annual NOI by c. JPY 12 million.¹

The Ichigo Hakata East Building is located in central Fukuoka, a real estate market with considerable rental growth potential. Please refer to Section 4 below for additional details on the asset and the specific acquisition rationale.

Ichigo Office decided to sell the retail asset because of the significant anticipated expenditures required for upgrades to maintain its competitiveness and the uncertain outlook for rents from restaurant and shop tenants in the area. Ichigo Office had been looking for a buyer for the retail asset who would simultaneously provide a quality office asset for Ichigo Office to acquire in order to avoid a fall-off in its earnings and dividend due to the sale. Ichigo Office's sponsor, Ichigo, was willing to both buy the retail asset and sell the office asset on the terms that Ichigo Office required, making today's transactions possible. The asset sale is expected to generate gains on sale of c. JPY 400 million.

With this asset sale, Ichigo Office is also embarking upon a new strategy to drive its sustainable growth with support from Ichigo. If Ichigo ever redevelops the Ichigo Shibuya Fiesta Building, Ichigo Office will have a preferential negotiation right with respect to acquiring the asset.²

Ichigo Office has confirmed the appropriateness of the Ichigo Hakata East Building's acquisition price and the Ichigo Shibuya Fiesta Building's sale price. Given that this is a related-party transaction, Ichigo Office fully implemented its related-party transaction procedures, including getting third-party appraisals on both the office and retail asset and cross-checking the third-party appraisals with an additional third-party second opinion appraisal.

Proceeds from the sale will be used along with cash-on-hand to finance the acquisition.

¹ The annual NOI increase is calculated per the following:

NOI of sold asset = Annualized NOI of sold asset based on October 2018 actual

NOI of acquired asset = Annualized forecast NOI of acquired asset calculated by IIA

For details, please refer to Reference on page 14.

² In the case that Ichigo decides to sell the asset after redeveloping it, Ichigo is required to give prior notice to Ichigo Office, and Ichigo Office will have a preferential negotiation right with respect to acquiring the asset.
