Explanation of Changes

Occupancy decreased for Tokyo Metropolitan Area due to a departing tenant at the Ichigo Ikejiri Building, but increased for Other Regional Cities due to a new tenant at the Ichigo Kumamoto Building. Despite the sale of the Ichigo Fiesta Shibuya Building on May 30, 2019, total leasable area increased as a result of acquiring the Ichigo Hakata East Building on May 31, 2019. For more details on these transactions, please see the May 29, 2019 release “Acquisition of Office Asset (Ichigo Hakata East Building) and Sale of Retail Asset (Ichigo Fiesta Shibuya Building).”

Value-Add Actions

As part of its value-add capex strategy, Ichigo Office has completed its eighth Ichigo Layout Office at the Ichigo Uchikanda Building. Ichigo Layout Office is a service that differentiates Ichigo buildings from those of its competitors by providing fully-fitted offices to accelerate tenant move-ins and reduce tenant costs.

The Ichigo Uchikanda Building is located in central Tokyo in Kanda, an area popular among startups that is adjacent to the Otemachi and Marunouchi central business district. The new Ichigo Layout Office is a high-quality office space that has been designed to facilitate open innovation and communication, and features a conference room and work space with mobile furniture that allows tenants to flexibly change layouts. After a recent private viewing event, Ichigo Office received interest from a large number of brokers and tenants. Given the significant demand, it is currently leasing the space via an open bid process.

Ichigo Office will continue to carry out value-add capex tailored to tenant needs and drive higher earnings for shareholders.
