### Explanation of Changes

Although occupancy decreased for Four Major Regional Cities and Other Regional Cities due to departing tenants at the Ichigo Nishi Honmachi Building and Ichigo Toyamaeki Nishi Building, occupancy increased for Central Tokyo and Tokyo Metropolitan Area due to new tenants at the Ichigo Jingumae Building, Ichigo Hakozaeki Building, and Ichigo Eitai Building.

### Value-Add Actions

As part of its ongoing efforts to increase tenant satisfaction via value-add capex, Ichigo Office renovated common areas at the Ichigo Jingumae Building, including the first floor façade and entrance hall. This mid-size office building is located in the Harajuku/Omotosando area facing Meiji Dori, a major thoroughfare leading to the Shibuya area. The renovation work leverages the building's prime location, and has contributed to the successful lease-up of vacant space on the first floor.

Ichigo Office will continue to work to increase tenant satisfaction and the competitiveness of its assets to drive higher earnings for shareholders.
