Note: The forecasts presented above are based on the preconditions set out below in “Preconditions for the October 2023 Earnings Forecast.” The actual operating revenue, operating profit, recurring profit, net income, and dividend may vary due to changes in circumstances. These forecasts should therefore not be construed as a guarantee of such results. Ichigo Office will revise the forecast should a substantial discrepancy emerge between the forecast and actual operating results.

2. October 2023 Earnings Forecast Revision Rationale

Ichigo Office is revising its earnings forecast to reflect the impact of the planned October 30, 2023 sale of the Twicere Yokohama Isogo (Retail Section) announced in today’s release “Sale of Retail Asset (Twicere Yokohama Isogo).” Ichigo Office expects to record gains on sale of c. JPY 112 million in the October 2023 fiscal period, which will be distributed as dividends to shareholders.

In addition, Ichigo Office has been transitioning its electricity contracts to market price-linked contracts because of the recent increase in gas prices, and its tenant electricity billing method from a fixed cost basis to a variable cost basis. Although the previous October 2023 earnings forecast is based on electricity prices at the time of the forecast, utility income and utility expenses are expected to be lower than the forecast given that electricity prices have been stable at lower-than-forecast levels.

Furthermore, due to the approval of Proposal 1: Amendment to the Articles of Incorporation (Reduce NOI & Dividend Performance Fee) at the Fourteenth Shareholder Meeting held on June 23, 2023, the NOI & Dividend Performance Fee rate of the asset management fees paid by Ichigo Office to its asset management company, Ichigo Investment Advisors, was reduced to 0.0048% from 0.0054%, and therefore, the October 2023 NOI & Dividend Performance Fee is expected to be lower than the previous forecast.

Although October 2023 operating revenue is forecast to be slightly lower than the previous forecast, the dividend is forecast to increase by JPY 101 (+5.0%).

There is no change to the April 2024 fiscal period earnings forecast.

(Note 1) Utility income (Operating Revenue) refers to the amount billed to the tenant by Ichigo Office based on the monthly electricity usage of each tenant space. Utility expenses (Operating Expenses) refers to the amount billed to Ichigo Office by the utility company based on monthly electricity usage for each asset, to which Ichigo Office adds a fixed percentage to the amount billed by the electric company as administrative costs to calculate the amount billed to the tenant.

(Note 2) The NOI & Dividend Performance Fee is calculated as follows.

Before Change	DPS (before deduction of NOI & Dividend Performance Fee) x NOI x <u>0.0054%</u>
After Change	DPS (before deduction of NOI & Dividend Performance Fee) x NOI x <u>0.0048%</u>

NOI is equal to the total rental income recorded during the applicable fiscal period minus the rental expenses (excluding Depreciation and Losses on Disposal of Fixed Assets)
