Changes in Organization of Asset Management Company

Ichigo Investment Advisors (“IIA”), the asset management company of Ichigo Office, decided at its board meeting held on May 25, 2025 to implement the following organizational changes and a new operating structure, effective June 1, 2025.

1. Corporate Reorganization Rationale

IIA invests in attractive, high-quality assets, drives asset value via value-add, and generates revenue via asset sales to maximize Ichigo Office’s shareholder value. Although J-REIT share prices have continued to decrease due to market uncertainty, the Japanese real estate market has continued to see long-term growth, and IIA believes that further strengthening its asset management capabilities and innovations is necessary for continued Ichigo Office growth. IIA is therefore implementing a corporate reorganization to create an organization that can flexibly respond to market changes and implement growth strategies in light of current market conditions.

2. Corporate Reorganization Overview

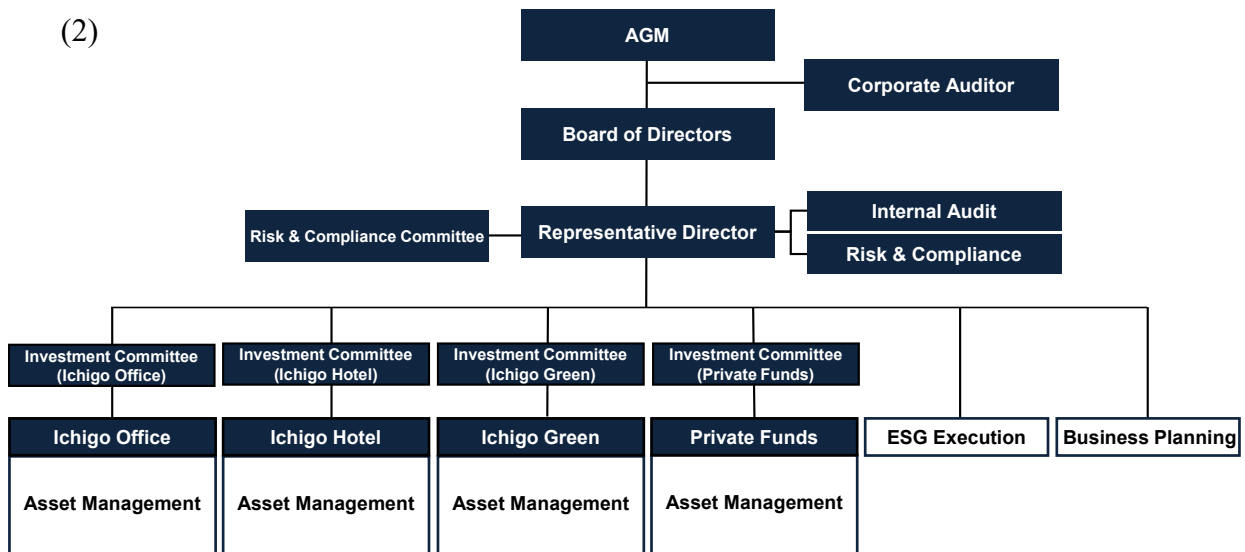

To strengthen Ichigo Office’s investment capabilities and relationships with stakeholders and maximize Ichigo Office’s shareholder value, IIA reassessed its current organizational structure under which functions were focused within divisions and is shifting to an organizational structure with teams specializing in investments, financing and investor relations, led by leaders with expertise in their respective fields.

Concentrating the finance, accounting, and disclosure functions for Ichigo Office, Ichigo Hotel (3463), and Ichigo Green (9282) under the newly created Finance & Accounting team will allow IIA to achieve a multifaceted perspective and economies of scale, thus driving overall performance quality.

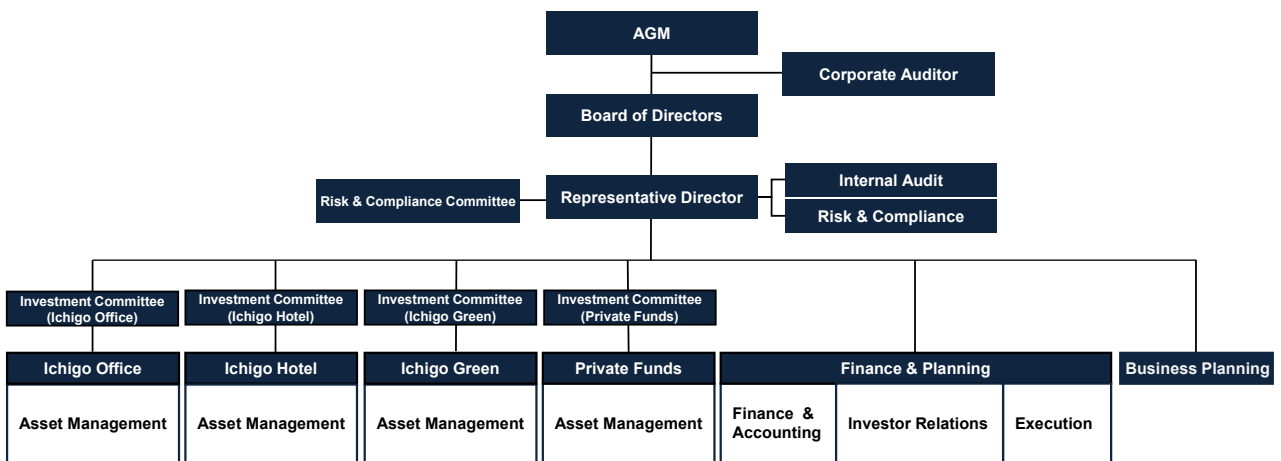

As a result of the reorganization, IIA’s new organizational structure and management team will be as follows, effective June 1, 2025.
